

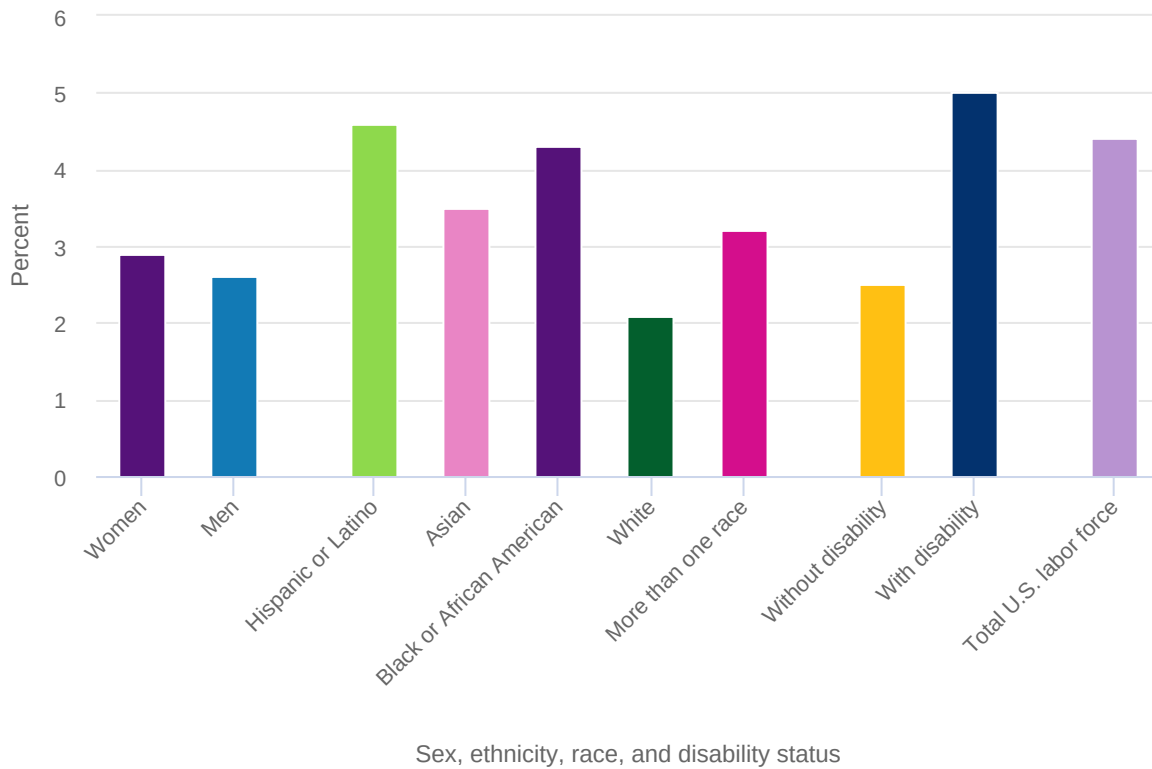

FIGURE 5-F
 Unemployment rates of scientists and engineers, by sex, ethnicity, race, and disability status, and of the U.S. civilian labor force: 2017

Note(s)

Hispanic or Latino may be any race. Unemployment rate calculated as the percentage of the labor force not working and looking for work. The National Survey of College Graduates asks the degree of difficulty—none, slight, moderate, severe, or unable to do—an individual has in seeing (with glasses), hearing (with hearing aid), walking without assistance, lifting 10 pounds, or concentrating, remembering, or making decisions. Respondents who answered "moderate," "severe," or "unable to do" for any activity were classified as having a disability. Scientists and engineers are individuals under the age of 76 who have a bachelor's or higher degree, are living in the United States, and have a science and engineering (S&E) or S&E-related degree or occupation.
