

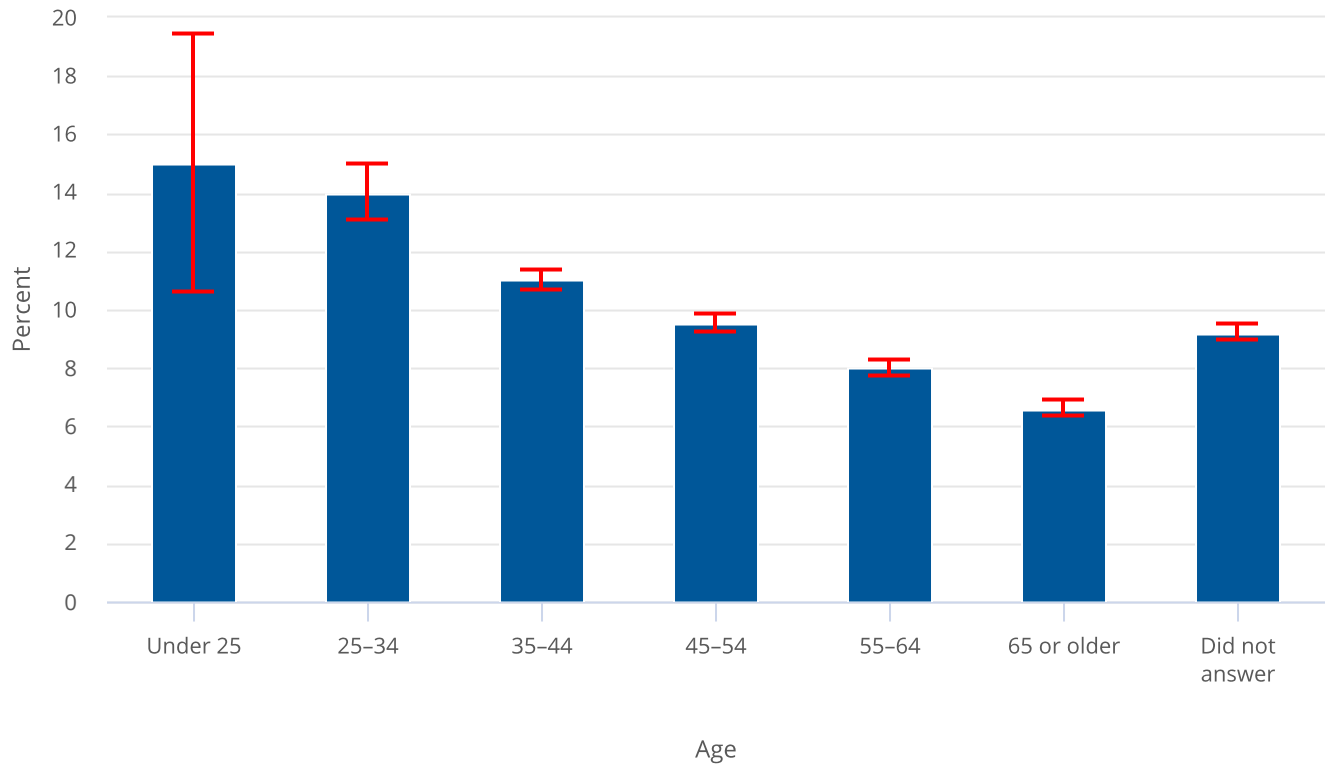

Figure 1. Companies that introduced product innovations from 2018–20, by age of owner: 2020

Note(s):

Statistics are representative of companies located in the United States. Companies tabulated in the “did not answer” category did not provide enough information to classify them based on the age of their owners. Companies are classified according to owner demographics if persons with that demographic characteristic own more than a 50% stake in the company.
