Israel	80	37
Other Middle Eastern locations	116	3

Table 54. Foreign employment and R&D employment, by location: 2024

(Thousands)

Location	Employees		
	Total	R&D	
Undistributed ^c	1,110	30	i

i = more than 50% of the estimate is a combination of imputation and reweighting to account for nonresponse; r = relative standard error is more than 50%.

^a Puerto Rico is not included in the U.S. total due to its classification as a U.S. territory.

^b Other Western Hemisphere is defined as Argentina, Brazil, Chile, Mexico, and other Latin America.

^c Undistributed includes data reported that were not allocated to a specific country.

Note(s):

Detail may not add to total because of rounding. Statistics are representative of companies located in the United States that performed or funded \$50,000 or more of R&D. No systematic item imputation was applied. These statistics include an adjustment to the weight to account for unit nonresponse.
